# 100kw hybrid inverter factory in New-Zealand

## Overview

---

What types of solar inverters are available in NZ?

There are different types of inverter available. This includes inverters that can connect to the electricity grid based on your home's connection. One of the most common types of solar inverter in use in NZ, however, is the hybrid inverter.

Who are Sungrow solar inverters?

A global inverter and storage manufacturer with a complete range of products for solar and storage projects in Australia and New Zealand. Sungrow make a complete range of solar inverters and energy storage products for residential, commercial, industrial and utility grade solar projects.

What is a 3 phase industrial hybrid inverter?

The 100kW 3-Phase Industrial Hybrid Inverter is a powerful and scalable solution designed to meet the demands of large industrial energy systems. Supporting parallel operation of up to 4 inverters, it can be expanded to an impressive 400kW capacity, making it ideal for high-power applications.

What types of inverters are available?

These are available as: Single-phase: designed for home and small business applications. Three-phase: developed for higher yield and more suitable for commercial environments. Hybrid inverters: have the option to draw power from the grid or your energy storage system. Hybrid inverters are great during power blackouts.
