

WALMER ENERGY

# 10kw energy storage solution in Busan South Korea

## Overview

---

Is Busan a good place for energy storage manufacturers?

Busan, South Korea's second-largest city, is strategically positioned as a port city, making it an ideal hub for energy storage manufacturers. Renowned for its advanced logistics and export infrastructure, Busan offers local energy storage manufacturers an effective gateway to international markets.

What is Gyeongsan substation – battery energy storage system?

The Gyeongsan Substation – Battery Energy Storage System is a 48,000kW lithium-ion battery energy storage project located in Jillyang-eup, North Gyeongsang, South Korea. The rated storage capacity of the project is 12,000kWh. The electro-chemical battery storage project uses lithium-ion battery storage technology.

Is South Korea's energy storage industry sustainable?

Environmental concerns regarding battery production and disposal are increasingly under scrutiny, prompting a shift towards sustainable practices in the industry. The global market relevance of South Korea's energy storage sector is significant, as it is one of the leading countries in battery technology.

Are South Korean companies investing in energy storage systems?

Less than a decade ago, South Korean companies held over half of the global energy storage system (ESS) market with the rushed promise of helping secure a more sustainable energy future. However, a string of ESS-related fires and a lack of infrastructure had dampened investments in this market.

## 10kw energy storage solution in Busan South Korea
