

150-foot energy storage container for tourist attractions

Overview

What is energy storage container?

SCU uses standard battery modules, PCS modules, BMS, EMS, and other systems to form standard containers to build large-scale grid-side energy storage projects.

Why should you choose a container energy storage system?

Safety is paramount in our container energy storage systems. Through advanced multilevel safety protocols, we guarantee the security of your energy investments, prioritizing user safety, system integrity, and peace of mind. Prepare for the unexpected with our container energy storage's black start capability.

What energy storage container solutions does SCU offer?

SCU provides 500kwh to 2mwh energy storage container solutions. Power up your business with reliable energy solutions. Say goodbye to high energy costs and hello to smarter solutions with us.

What is CATL's new energy storage system?

This is CATL's new move in the energy storage space after the April 2024 release of Tener, an energy storage system with zero degradation for five years. Tener is a standard 20-foot containerized energy storage system with a total capacity of 6.25 MWh, the highest energy in the world at the time.
