17 new energy charging stations in Romania

Overview

Where to charge an electric car in Romania?

The electric car charging stations at IKEA Băneasa are available non-stop and can be started via the Be Charge app. The two electrical stations are AC, 22kW, and can be found at 42A Bucharest-Ploiești Road. With a charging rate of 3,23 lei/kWh for AC, the stations have one of the highest rates in Romania to charge an electric car.

Can Romania charge electric cars in 2025?

Although Romania is far behind Western European countries in terms of electric car charging station infrastructure, Romanians have a few gas stations and shopping centers where they can charge electric cars in 2025. The Romanian electric car charging network has approximately 1.700 charging points, which can be found on the PlugShare platform.

How many charging points are there in Romania?

The Romanian electric car charging network has approximately 1.700 charging points, which can be found on the PlugShare platform. Depending on the city where the next charging is planned, Romanians can find out where the charging points are, the type of stations (normal or fast) and the charge to charge.

Where can I charge my electric car?

Most shopping centers have charging stations installed in their parking lots to charge electric cars. Among them are Carrefour, Kaufland, Lidl, Mega Image, Ikea. And in certain gas stations Mol, Rompetrol, OMV, Petrom and LukOil you can find charging stations.
