

# **200kw solar power station generator**

## Overview

---

What is 200 kW on grid Solar System?

200 kw on grid solar system is widely used in grid side power generation, corporate power, hospitals, photovoltaic farms, community microgrids and other applications. We have installed PV projects in Germany, France, UK, Romania, UAE, Brazil, Australia, Jamaica and many other countries.

How big is a 200kW solar power system?

A 200kW system using 370W panels will require about 949.0 square meters of roof to be installed. Each 370W panel measures about 1.75m x 1m. 200kW solar power systems are mostly suitable for Businesses with very high energy needs. This size of solar power system is classed as "Large Scale".

How much does a 200kW solar system cost?

The 200kw grid tied solar system has a remote intelligent monitoring system, which can monitor and count the daily power generation of solar system in real time and can remotely view and analyse the problem when the system fails. 200kw on grid solar system price is about \$40000.

What configurations make up a 200kva 200kW solar power plant?

The following configurations make up a complete 200kva 200kW solar power plant: Optional solar mounting support, PV combiner boxes, and cables. PVMARS provides a complete turnkey PV energy storage system solution. After we complete production, the system delivered to you can be used immediately after connections are made.
