

# **250kW Foldable Container for Power Grid Distribution Stations**

## Overview

---

What is a 20ft container 250kW 860kwh battery energy storage system?

Equipped with automatic fire detection and alarm systems, the 20FT Container 250kW 860kWh Battery Energy Storage System is the ultimate choice for secure, scalable, and efficient energy storage applications. Email us with any questions or inquiries or use our contact data.

What is a 20ft container energy storage system?

It also includes automatic fire detection and alarm systems, ensuring safe and efficient energy management. The 20FT Container 250kW 860kWh Battery Energy Storage System is a highly integrated and powerful solution for efficient energy storage and management.

How much power does a 20ft container have?

The 20ft container features a 614 kWh 250kW power storage system, which can be built almost anywhere due to the prefabricated design, therefore, much time and money involved in the process will be saved. The control system of voltage and frequency regulation can help meet the emergency demand for power supply.

What is a 12-kw air-conditioning system?

A 12-KW air-conditioning system is equipped to maintain an optimal temperature for prolonging the service life of battery system. The battery system complies with the standard of IP54 rating. An air-conditioning battery system is in place to ensure optimal temperature for operation of the battery.

## 250kW Foldable Container for Power Grid Distribution Stations
