

WALMER ENERGY

# 2GWh Energy Storage Lithium-ion Battery Factory Project

## Overview

---

Why is SolarEdge building a 2gwh battery plant?

SolarEdge said the plant is a response to growing demand for battery energy storage and will have a 2GWh annual production capacity when it fully ramps during the second half of this year. The factory is named Sella 2, after SolarEdge's late founder and former CEO Guy Sella.

What is the production process of lithium ion batteries?

The production process of lithium-ion batteries involves using significant amounts of electricity in the charge/discharge cycles of battery formation. The technical limitations of the traditional battery production process often cause this electricity to be discharged without reusage.

Is Amara Raja ready for 2gwh commercial production?

Amara Raja Nears Completion of Lithium-ion Pilot Plant, Gears Up for 2GWh Commercial Production. Indian battery leader prepares FY26 operational launch for multi-chemistry lithium cell pilot line, with 16GWh scalable giga factory planned. 1. Flexible Pilot Plant Capabilities 2. Indigenous R&D Focus 3. Phased Commercial Scale-up

## 2GWh Energy Storage Lithium-ion Battery Factory Project
