# 35 degree solar container battery

## Overview

---

What is Sunbox 35A – mobile solar container?

SunBOX 35A – mobile solar container. This container is created to achieve the highest level of efficiency. Thanks to its solar tracking system, it always keeps the PV panels properly oriented. This solution lets you avoid any significant power drops during the day thus get the most out of your panels.

How to keep a solar battery & inverter in a container?

Sun tracking and auto-folding systems. In order to maintain optimum performance, the container is equipped with the sun tracking system. Thanks to this solution, you can leave the container in one position. A place for battery and inverters inside. Enough room inside of the container allows installing all the necessary batteries and inverters.

What is a mobile solar container?

Mobile Solar Container is also a great storage option for PV panels while not in use. Automatic hydraulic systems. It wouldn't be possible to create such a convenient system without the highest quality hydraulics. The entire system is designed by our engineers with long-standing experience in special mobile constructions.

What are the advantages of a mobile solar container?

Convenient levers make it even easier to operate for only one person. Mobile Solar Container is also a great storage option for PV panels while not in use. Automatic hydraulic systems. It wouldn't be possible to create such a convenient system without the highest quality hydraulics.
