

WALMER ENERGY

518 MW of solar energy

Overview

Does Meton energy have a 10-year power purchase agreement?

Meton Energy has signed 10-year power purchase agreements (PPA) for the new solar farms with PPC and RWE Supply & Trading. “We are delivering our solar projects at an impressive pace.

Will Amynteo build a solar farm?

The company has taken the final investment decision for the construction of an additional photovoltaic project in the country. This solar farm is the last project of the 940 MWp (870 MWac) Amynteo portfolio, which is now entering the construction phase.

Will Amynteo connect 490 MWp to the grid?

Within one year, the joint venture company has successfully developed and taken investment decisions on all three clusters of the Amynteo portfolio with a total capacity of 940 MWp, and is looking to connecting 490 MWp to the grid already this year.

Where in Macedonia will a new solar project take place?

These projects, located in the Prefecture of Central Macedonia, will add to the 940 MWp/870 MWac of solar capacity already in operation or planned for completion by the joint venture by the end of 2025 in Western Macedonia, within the boundaries of the former Amynteo opencast lignite mine.
