

# 550W energy storage power supply

## Overview

---

How much does a 550 watt power supply cost?

550 Watt Casecom Power Supply ATX550W \$39 Add to cart Out of Stock  
Compare 700 Watt Casecom ATX Power Supply ATX700W \$69 Add to cart Out of Stock  
Compare Casecom Micro-ATX CMC-72 Tempered Glass Case With 550w Power Supply.

Is 550W power supply enough?

No, even a high quality 550W power supply is not enough for a Ryzen 9 3900X and RX 5700 XT system, as it will use around 450w~480w on max load. While that is true, this leaves relatively little headroom in terms of upgradability.

What is toughpower 550W gold (modular)?

Toughpower 550W Gold (Modular) comes with modular design to reduce cable clutter; and ultra-quiet fan delivers silent cooling, thus the entire computer and power supply can operate at its peak moment.

What is toughpower 550W series?

Toughpower 550W Gold series adopt flat modular cables not only eliminate cable clutter within the system, but takes up less space for better airflow. Japanese made capacitors provide uncompromised performance and reliability. Toughpower Series is equipped with a powerful single +12V rail, please see the output specification below:
