

# **ASEAN Energy Storage Project**

## Overview

---

How will ASEAN accelerate energy transition efforts?

The ASEAN Member States will accelerate energy transition efforts by setting a more aggressive energy intensity reduction target of 32% by 2025 based on 2005 level.

What are ASEAN energy outlooks (AEO)?

The 5th and 6th ASEAN Energy Outlooks (AEO), supported by AGEP, were published by ACE to project the region's future energy landscape with policy recommendations for the region's pathways towards a sustainable energy future. In 2018, the ASEAN Energy Database System (AEDS) of ACE was launched at the 36th AMEM in Singapore.

How can ASEAN promote energy efficiency?

To further increase EE investments, the AMS will stimulate business forum activities through the ASEAN Energy Business Forum and Cleaner Energy Future Initiative for ASEAN (CEFIA) and to encourage strategic clusters, accelerators, start-ups and incubation centres for promoting innovation and cooperation in energy efficiency.

What is the ASEAN nuclear energy portal?

Likewise, ACE developed the "ASEAN Nuclear Energy Portal" as an information sharing and exchange platform. The portal, which provides links to journals and research papers relevant for the development of civilian nuclear energy in ASEAN, will be integrated with the ASEAN Energy Database System (AEDS) in the APAEC Phase II.
