# About Energy Base Station

## Overview

---

How does the base station work?

The Blockstream Satellite Base Station connects directly to your home network using Power over Ethernet (PoE) after installation and alignment of the flat-panel antenna. It works with our satellite network in most parts of the world.

Who is base energy?

We are a multi-disciplined and experienced Building and Energy Consultancy company carrying out sustainable building and energy assessments. As an Energy Consultant Company, Base Energy have grown due to the increase in the building industries emphasis on sustainable development.

What is the largest grid-forming energy storage station in China?

This marks the completion and operation of the largest grid-forming energy storage station in China. The photo shows the energy storage station supporting the Ningdong Composite Photovoltaic Base Project. This energy storage station is one of the first batch of projects supporting the 100 GW large-scale wind and photovoltaic bases nationwide.

What is Ningxia power's energy storage station?

On March 31, the second phase of the 100 MW/200 MWh energy storage station, a supporting project of the Ningxia Power's East Ningxia Composite Photovoltaic Base Project under CHN Energy, was successfully connected to the grid. This marks the completion and operation of the largest grid-forming energy storage station in China.
