

# All in one solar power system in Uk

## Overview

---

How much power can the All in One system deliver?

The All in One system can deliver 7.2kW of peak power into the home on top of any solar generation. It combines a 13.5kWh LiFePO4 battery and an AC coupled inverter in one integrated system, primarily working as an on-grid system.

Does givenenergy work with new or existing solar PV systems?

Compatible with new or existing solar PV systems. Monitor, control, and optimise energy usage easily via the GivEnergy Gateway. A £750 refundable deposit is required to begin the installation process and, where necessary, to submit your DNO (Distribution Network Operator) application. The balance payment is due before delivery of the system.

What are the benefits of a solar PV system?

It is packed with benefits such as greater energy harvest from PV module, its compact design saves your space, whilst the slim appearance fits easily into your house aesthetics.
