Amsterdam PV module exports

Overview

Is the Dutch PV market poised for stability?

Volatility in the global PV market did not go unnoticed this week at the Solar Solutions Amsterdam trade fair. However, the prevailing impression is that the Dutch PV market is poised for stability. The organizers of Solar Solutions Amsterdam counted exactly 5,124 visitors on the first day of the event.

Is the Netherlands a good place to integrate solar PV modules?

The Netherlands holds a unique position in the integration of PV modules in the built environment. Through desk research and interviews with industry experts we address relevant market failures that affect the European solar PV supply chain and provide strategic perspectives for rebuilding it.

Which country imports the most PV modules to Europe?

In addition to exports to Asia, it is noteworthy that the United States of America stands out as the largest single Extra-European importer of European PV hardware. Table 3. The imported and exported value [€, millions] and the share [%] of PV modules and cells into Europe from third countries.

What is the Dutch solar PV industry?

Developments of the Dutch solar PV industry closely followed the European solar PV industry. However, in time, the Dutch industry will focus more on a niche market with aesthetic, thin-film, flexible solar panels that are suitable to integrate into buildings to expand solar capacity while saving space.
