

# Arc flash switchgear in China in Brisbane

## Overview

---

What arc flash mitigation solutions are available?

Improve safety with our extensive portfolio of arc flash mitigation solutions including arc quenching and arc-resistant switchgear, Power Xpert XGIS switchgear, Power Xpert Dashboard, Power Defense molded case circuit breaker, Insulgard, arc flash relays and more.

What are arc-resistant switchgear & control panels?

Arc-resistant switchgear and control panels may be installed in order to trap and redirect the arc flash energy. Overcurrent protection devices such as circuit breakers and fuses also quench fault currents rapidly to reduce the duration of the arc. Remote switches can be mounted in a way that workers can access them remotely.

What is arc flash protection?

Arc flash protection detects electrical arcs in MV and LV equipment and quickly isolates power to limit arc energy and minimize risks.

What is arc quenching Magnum DS switchgear?

The arc quenching Magnum DS switchgear detects and extinguishes an arc flash in less than 4 ms to dramatically reduce incident energy. It reacts 10x faster than systems that rely solely on circuit breakers to clear an arc fault, including maintenance switches, ZSI, bus differential relaying and arc detection relays.
