Are there any 5G base stations in the Czech Republic

Overview

Does Czech Republic have a 5G network?

The public 5G networks in the Czech Republic currently operate on a non-standalone (NSA) 5G architecture, which is built on top of the existing 4G LTE infrastructure. To date, standalone (SA) 5G networks have been deployed primarily as private "campus" solutions.

What frequencies will be used for 5G in Czechia?

Other bands, such as 66 - 71 GHz, will be also used by 5G. How far is Czechia with preparations?

Frequencies in the bands 700 MHz and 3.4 - 3.8 GHz needed for deployment of 5G networks have already been the subject of frequency auctions.

Where can I find information about 5G bands in Czechia?

Information about bands used by mobile networks can be found at spektrum.ctu.cz. New bands designated specifically for 5G include 700 MHz band or 26 GHz band, which will allow use of ultra-wideband channels. Other bands, such as 66 - 71 GHz, will be also used by 5G. How far is Czechia with preparations?

Which mobile networks cover the most populated areas in the Czech Republic?

All mobile network operators (MNOs) have deployed 5G networks focusing on coverage of the most populated areas and specifically cities. Vodafone covers over 96.47%, O2 over 93.56% and T-Mobile 93.40% of the population in the Czech Republic (data as of 1 November 2024).

Are there any 5G base stations in the Czech Republic
