

# **Atess hybrid inverter factory in Israel**

## Overview

---

Are solar inverters relevant in Israel?

Lastly, the global relevance of solar inverters cannot be overlooked, as advancements in this field often influence and are influenced by international markets. Companies looking to succeed in Israel should focus on innovation, regulatory compliance, and sustainability to capture the growing demand for solar energy solutions.

Where is ATESS based?

Based in Shenzhen, China, ATESS has a sophisticated and automated manufacturing plant. An international service network with offices and warehouses has been built in 5 continents to ensure fast shipping and after-sale service. Our product The ATESS solutions include all-in-one hybrid inverters, battery inverters and lithium battery solutions.

What is an all-in-one hybrid inverter?

All-in-one hybrid inverter combines solar and battery into one unit, with powers from 5kW to 150kW, allowing users to harness solar power, store excess energy, and use it during peak demand or outages. 15-20kW three-phase all-in-one hybrid inverter for small commercial use.

What challenges will Israel face in the solar inverter industry?

Challenges may arise from competition with established players and the need for innovative technology that meets the unique demands of the Israeli climate. The opportunity for growth in the solar inverter sector is significant, given the country's abundant sunlight and commitment to expanding solar energy capacity.
