

# Australia s new energy range extender battery cabinet

## Overview

---

Are Australia's 'cheapest home batteries' delivering the energy transition?

Australian households and businesses are powering ahead in the energy transition, with batteries installed under the Cheaper Home Batteries Program well exceeding the initial operating capacity of Australia's largest grid-connected battery.

What is a pytes Battery Cabinet?

Designed to work seamlessly with solar panels and renewable energy sources. Featuring a modern design and overall protection, our battery cabinets range offer compact enclosures that accommodates the Pytes lithium iron phosphate energy storage batteries for faster, safer and more space-saving installation.

What storage solutions are available for battery energy batteries?

Our space efficient storage solutions for batteries are designed to accommodate vertically or horizontally installed Battery Energy batteries. Horizontal rack configurations offer a minimum 600mm x 600mm footprint of and can cater for up to eight fully adjustable shelves.

What is Australia's largest battery?

The 55,000 battery applications represent over 1 gigawatt-hour (GWh) of storage capacity, surpassing the 0.7 GWh initial operating capacity of Australia's largest in-service battery, the Waratah Super Battery. "This is a landmark achievement," CER Chair David Parker said.
