

Australian generator container manufacturers

Overview

What is a containerised generator?

The containerised generators are suited for mining and construction applications and have comprehensive back-up sales, parts and service support through the PR Power Australia wide network. Not sure what you're looking for?

PR Power's premium range of containerised generators are powered by genuine Perkins & Cummins diesel engines.

Who makes AKSA Power generators in Australia?

We are the Australian Distributor for AKSA Power generators offering quality engines such as Cummins, Perkins and Mitsubishi, we also manufacture our own custom-built power generators in Australia, including containerised solutions, which are customised and engineered to our customer's requirements.

How much power does a generator have in Australia?

Our generators and energy power systems in Australia range from 6 kVa to 3000 kVa power. Generators are available as open sets, or fully enclosed in mild steel, stainless steel or aluminium canopies, with noise levels as low as 55db (A)@1M.

Are containerised generators self-contained?

Our containerised generators run within a standard ISO shipping container and are completely self-contained. Why Choose a Containerised Generator?
