# Automatic Financing Solution for Folding Containers Used in Railway Stations

## Overview

---

How is a railway project financed?

Requests for financing from railway operators are evaluated through a thorough approval process consisting of three phases: EUROFIMA's internal teams appraise the economic, financial, legal and technical aspects of each railway project and evaluate any potential risk related to it.

What is Eurofima rolling stock?

For Eurofima rolling stock means coaches, locomotives and multiple units. Eurofima supports its shareholder railways as well as other railway bodies in renewing and modernizing their equipment. Is EUROFIMA a bank?

How does Eurofima evaluate a railway project?

EUROFIMA's internal teams appraise the economic, financial, legal and technical aspects of each railway project and evaluate any potential risk related to it. Particular emphasis is put on the technical and economic evaluation of the rolling stock which collateralizes the requested financing.

What are the different types of Railway Containers?

1. Types of Railway Containers Ideal for dry cargo like paper, grain, clothing, electronics, etc. Largest containers on the market, perfect for transporting large cargo such as vehicles and machinery. Feature no fixed roof, suitable for tall or irregularly shaped goods. Covered with a tarpaulin during transport to protect from weather.
