# Baku power ups uninterrupted power supply

## Overview

---

What is a battery backup uninterruptible power supply (UPS)?

The battery backup uninterruptible power supply (UPS) (sold separately) continues to provide automatic emergency backup power to your electronic devices giving you time to respond to the power failure. This system is stand alone and will work with any Battery Backup Power, Inc. uninterruptible power supply (UPS).

What is an uninterruptible power supply (UPS)?

Uninterruptible Power Supply (UPS) | Schneider Electric Hong Kong, China. An Uninterruptible Power Supply system provides emergency power when the main source fails, using batteries to ensure a continuous supply. It conditions incoming power, protecting equipment from fluctuations. We offer various UPS power supply types for different needs.

Why do you need a 3-phase UPS system?

It also serves as a reliable battery backup. A 3-phase UPS system is crucial in data centres, edge computing, and industrial applications where uptime and data integrity are vital. It protects servers, storage systems, networking equipment from power quality issues.

What is a server ups & Easy Ups?

Solutions such as Smart-UPS and Easy UPS safeguard servers, network devices, and storage systems, maintaining business continuity with high-efficiency performance and advanced battery management. The Server UPS range includes variants like Smart-UPS On-Line and Easy UPS 3S.
