

# Base station ensures safe communication distance

## Overview

---

What does a base station do?

It serves as the central hub that connects multiple user devices (such as radios, mobile phones, or IoT devices) to a network, enabling long-range communication. Base stations are equipped with transmitters and receivers, which help to send and receive radio signals to and from mobile devices.

Do mobile phones need a base station?

Mobile phones and other mobile devices require a network of base stations in order to function. The base station antennas transmit and receive RF (radio frequency) signals, or radio waves, to and from mobile phones near the base station. Without these radio waves, mobile communications would not be possible.

What is a radio base station?

In the world of radio communications, a radio base station plays a vital role in ensuring reliable and seamless communication across a wide area. Whether used in mobile networks, professional communication systems, or emergency response scenarios, base stations are essential for facilitating voice, data, and video transmissions.

Why are radio base stations important?

Radio base stations ensure seamless communication over large geographical areas, making them essential for public safety, transportation, and enterprise networks. They can be scaled to meet the growing communication needs of industries such as manufacturing, utilities, or emergency response.

## Base station ensures safe communication distance

---

Mobile phone base stations: radio waves and health

Jul 30, 2024 · Summary Base stations transmit and receive radio waves to connect the users of mobile phones and other devices to mobile communications networks. The strength of the ...

---

Evaluated minimum safe distances for mobile-communication base stations

Aug 5, 2024 · In Table 1 are presented the minimum safe distances for GSM 900, GSM 1800 and 3G base stations, in terms of public and occupational exposure.

---

Safety Distance Calculations for Macrocell Mobile Base Station ...

Nov 19, 2017 · Wireless mobile communication networks have become essential for human life. A great booming and huge investments are devoted to develop the services without taking into ...

---

Base stations and networks

5 days ago · Mobile phones and mobile devices require a network of radio base stations to function. Radio waves have been used for communication for more than 100 years.

---

ICNIRP , Base Stations

Over large distances, the signals must be relayed by a communication network comprising base stations and often supported by a wired network. The power of a base station varies (typically ...

---

Radio Base Stations for Secure Communication

Discover Belfone's advanced radio base stations designed for reliable, scalable, and secure communication. Perfect for public safety, industrial, and enterprise use, Belfone's solutions ...

---

Mobile Base Station Roles and Radiation vs Distance

Oct 2, 2025 · Base stations are designed and operated to comply with these standards to ensure that exposure levels remain within internationally accepted limits. For additional precaution, ...

---

Evaluated minimum safe distances for mobile ...

Aug 5, 2024 · In Table 1 are presented the minimum safe distances for GSM 900, GSM 1800 and 3G base stations, in terms of public and occupational ...

---

Risk Communication Guide for Mobile Phones and Base ...

Sep 26, 2023 · Communication about the location of base station antennas or use of mobile phones is sometimes characterised by high levels of concern about the subject and very little ...

---

### Optimal location of base stations for cellular mobile network

Jun 1, 2025 · We developed a mixed integer programming model to provide the optimal location of base stations at different time periods with the network's minimum total cost (i.e., installation ...

---

### Communication Base Station Safety Standards , Huijue ...

As 5G deployments accelerate globally, communication base station safety standards face unprecedented challenges. Did you know that 68% of urban base stations now operate ...
