

# Base station solar container battery gross profit

## Overview

---

How will CATL's energy storage business perform in 2024?

According to the report, CATL's energy storage revenue in the first half of 2024 will be 28.825 billion yuan, a year-on-year increase of 3%. From the perspective of gross profit margin, the gross profit margin of the energy storage business was 28.87%, which was the highest among the four main businesses of CATL.

How profitable is battery energy storage system (BESS)?

Profitability Analysis Year on Year Basis: The proposed Battery Energy Storage System (BESS) plant, with an annual installed capacity of 1 GWh per year, achieved an impressive revenue of US\$ 192.50 million in its first year.

What is battery energy storage?

Battery energy storage or BESS is a modern energy storage solution that stores energy using multiple battery technologies including li-ion for later use. Batteries receive energy from solar/wind or other energy sources and consequently stores the same in the form of current to later discharge it when needed.

What is the future of battery energy storage systems?

The battery energy storage systems industry has witnessed a higher inflow of investments in the last few years and is expected to continue the same trend in the coming future. According to the International Energy Agency (IEA), investments in battery energy storage exceeded USD 20 billion in 2022.

## Base station solar container battery gross profit
