

Batch deposit at small sites

Overview

What is a batch deposit?

A batch deposit records multiple invoices as paid in a single payment transaction. You can create a batch deposit if you're going to bank cash and cheques for multiple invoices as one deposit, or a customer has made a single online payment for multiple invoices. You can include a maximum of 50 invoices in a batch deposit.

When should I create a batch deposit?

Create a batch deposit when you're going to deposit cash or cheques in your bank account for multiple invoices. Batch deposits are also useful when a customer has made a single payment for multiple invoices. A batch deposit records multiple invoices as paid in a single payment transaction.
