# Battery cabinet hinge

## Overview

---

What is a cabinet hinge LED light system?

This is a cabinet hinge LED light system, made of high-quality ABS material, sturdy and durable to use. They having properties of high brightness and lower power consumption, it is really a practical and affordable cabinet light. The lamp will turns on automatically when opening the cabinet, and the light turns off when closing the cabinet.

How does a lithium ion battery storage cabinet work?

Labtron's Lithium Ion Battery Storage Cabinet features a hybrid-close door, providing a manual closing option that allows the door to stay in place at any angle. In the event of a fire, the door automatically self-closes when the temperature exceeds 122°F (50°C), offering increased fire protection.

How secure is the lithium ion battery storage cabinet?

The electronic locking mechanism in the Lithium Ion Battery Storage Cabinet ensures a high level of security by restricting access to authorized personnel only. This lock can be programmed with PIN codes or biometric access, providing advanced security and preventing unauthorized tampering.

What are labtron lithium ion battery storage cabinets?

Labtron Lithium Ion Battery Storage Cabinets are engineered for secure storage and controlled battery charging environments. These cabinets feature self-closing, oil-damped doors and triple hinges for maximum structural endurance. They are constructed with a powder-coated steel body and integrated leak-proof sump for safe containment.
