

WALMER ENERGY

Battery cabinet in Amsterdam

Overview

What is a battery storage & charging cabinet?

Protect your batteries and environment with our high-quality storage and charging cabinets. Specially designed for safely storing and charging Lithium-ion batteries, ideal for e-bikes, e-steps, scooters, hand tools and other applications.

What are labtron lithium ion battery storage cabinets?

Labtron Lithium Ion Battery Storage Cabinets are engineered for secure storage and controlled battery charging environments. These cabinets feature self-closing, oil-damped doors and triple hinges for maximum structural endurance. They are constructed with a powder-coated steel body and integrated leak-proof sump for safe containment.

How many kWh are in a battery storage container?

Each battery energy storage container unit is composed of 16 165.89 kWh battery cabinets, junction cabinets, power distribution cabinets, as well as battery management system (BMS), and the auxiliary systems of distribution, environmental control, fire protection, illumination, etc. inside the container; the battery container is 40 feet in size.

What makes the outer cabinet a good Battery Care Service?

The outer cabinet features a robust IP54 rating and is designed for maximum reliability. Our proprietary Battery Cloud technology continuously collects and analyzes system data. This enables our Battery Care service to actively monitor performance and maximize the value of your investment.
