# Battery mobile energy storage equipment

## Overview

---

### What is mobile energy storage?

Mobile energy storage provides a clean alternative to diesel generators for locations with no grid connection or only a weak one. Grid congestion creates increasingly long waiting times for companies who want to increase their grid connection. Mobile energy storage is the temporary solution to keep your business running.

### What is terracharge battery energy storage?

The TerraCharge battery energy storage system by Power Edison can make utility-scale energy storage mobile, flexible, and scalable. Power Edison, a provider of utility-grade mobile energy storage solutions, has developed the TerraCharge platform, their newest trailer-mobile battery energy storage system (BESS) for utility-grade applications.

### What is a Battery Energy Storage System (BESS)?

A Battery Energy Storage System (BESS) is a cornerstone technology in the pursuit of sustainable and efficient energy solutions. This guide offers an extensive exploration of BESS, beginning with the fundamentals of these systems.

### What is MBE mobile battery energy?

MBE Mobile Battery Energy units allow the storage of energy from multiple sources: generator, solar, or the grid. You can then redistribute that energy, at a later time, to a site that needs power.
