Berlin solar panels installed on rural roofs

Overview

How many photovoltaic systems are there in Berlin?

Compared to solar thermal energy, there are far more photovoltaic systems registered in Berlin. As of July 7, 2023, 20,985 systems were in place, with a total installed capacity of around 230 MWp.

How much solar power does Berlin have?

According to the master plan study for the “Masterplan Solarcity Berlin”, the State of Berlin owns 5.4 % of Berlin’s buildings. Their roof surfaces account for 8.3 % of the solar potential (SenWEB 2019). On the public buildings in Berlin, there are 691 PV systems with a total installed capacity of 42.1 MWp (as of April 1, 2023).

Are solar panels mandatory in Berlin?

The set of measures stipulated in the master plan is accompanied by the Berlin solar law. Solar panels have been mandatory since January 1, 2023. The installation and operation of photovoltaic systems have been mandatory since then for new and existing buildings under certain conditions (SenK 2021).

Is solar energy a building block for Berlin's climate protection strategy?

The expansion of solar energy use is emphasised as a particularly important building block in Berlin's climate protection strategy, since, with over 560,000 buildings in Berlin, there are rooftops and house façades aplenty, unlike suitable wind power sites.
