## Overview

---

Where can I buy high quality water & solar pumps?

Welcome to our Website Tripple Hydro & Energy offers a wide selection of High Quality Water and Solar Pumps to choose from. A Wide range of popular add-on's are also available ranging from Solar Pumping to Water Harvesting Solutions . Very popular options are our DIY range of products available through our online store.

What is a surface solar pump?

Surface solar pump - these sit above ground and move water through pipes. They are handy for moving large quantities of water at a slow pace and are commonly found on farms or large irrigation systems where water needs to be moved from a lake or other body to fields or landscaping.

What is a solar pumping system?

Solar pumping system consists of three parts: solar pumping controller, DC or AC three-phase pump and PV module. Even on cloudy days, it can pump 10% water flow per day. Solar panels convert sunlight to electrical energy which is passed to the solar pump controller.

What is a submersible solar water pump?

Submersible solar water pump - These are installed underground, but the solar panels are connected above ground. The pumps are used to move water from inside wells to the surface. SunFire Solutions also provides solar pumps for ponds, water features and more smaller projects. Find the perfect solar pump for sale that work for your needs.
