

# **Botswana container roof solar can be customized**

## Overview

---

Why should you choose a modular solar power container?

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy.

Why do you need a solar container?

Deploy power in hours Perfect for remote locations, construction sites, events, and emergency response situations. Our solar containers ensure fast deployment, scalability, customization, cost savings, reliability, and sustainability for efficient energy anywhere.

What is a photovoltaic carport?

Photovoltaic carport combine solar photovoltaic modules with the roof of a parking shed, and are the simplest type of photovoltaic building integrated BIPV products. They can not only realize all the functions of traditional carports, but also achieve power generation benefits.
