

# **Botswana solar container communication station wind power generation**

## Overview

---

How much does Botswana's solar project cost?

The project is a key development in Botswana's renewable energy sector, marking the country's second utility-scale solar facility. The contract which is valued at \$78.3 million includes partnerships with China Water and Electric Development Co. and local investors.

Will Botswana build a 100-megawatt solar plant?

Botswana has awarded a \$78.3 million contract to build a 100-megawatt solar plant to a consortium led by China Harbour Engineering Co. The project which is Botswana's second utility-scale solar facility is set to be completed in the second quarter of 2026.

When will Botswana's second solar power plant be completed?

The project which is Botswana's second utility-scale solar facility is set to be completed in the second quarter of 2026. Botswana has awarded a major contract to build a 100-megawatt solar power plant to a group of Chinese companies led by China Harbour Engineering Co.

Where is Scatec ASA building a solar power plant in Botswana?

In March, Scatec ASA began construction of a 100-megawatt solar power plant in Botswana's northeast. The initial 60 megawatts of this project are expected to come online by the end of this year. The Ministry of Minerals and Energy is also working on additional renewable energy projects.
