# Brazil New Energy solar container outdoor power BESS

## Overview

---

Is there a Bess project in Brazil?

Image: A BESS project in Brazil from ISA CTEEP. The Brazilian Minister of Energy and Mining has unveiled an auction for battery energy storage projects to be held in 2025.

Could a Bess auction boost renewables in Brazil?

The launch of a dedicated BESS auction in Brazil could help boost the growth of the technology in the country and further enhance the use of renewables such as solar PV and wind.

Can Brazil be a big battery storage country?

With well-designed policies and regulations, Brazil has significant potential to follow in the footsteps of jurisdictions like California and Chile for large-scale battery storage, Germany for distributed and large-scale storage, and Australia for both pumped hydro and large-scale battery systems.

How will Bess support Brazil's energy transition?

The landmark bond issuance, the first of its kind in Brazil dedicated solely to BESS, will go a long way to supporting the country's energy transition by enhancing grid reliability, optimising renewable energy use, and further reducing the dependence on fossil fuels.
