# Cairo solar Energy Storage solar container lithium battery

## Overview

---

Will Egypt build a solar and battery storage hybrid project?

The energy project will encompass a 1GW solar and 100MW/200MWh battery storage hybrid project, the first of its kind in Egypt. Construction on a solar and battery storage hybrid project in Egypt is set for the first half of 2025.

How many MW solar & battery storage will be built in 2026?

The project will be constructed in two phases. The first phase of 561 MW solar + 100 MW/200 MWh battery storage is targeted to reach commercial operational date (COD) in the first half of 2026 and the second phase of 564 MW solar in the second half of 2026.

Does Egypt have a green energy deal with Scatec?

Last year Egypt signed a memorandum of understanding (MoU) with Scatec to supply ships with green fuel in East Port Said, with investments worth around \$1.1 billion. The investment covers clean energy generation, with an annual production capacity of up to 100,000 tons of green methanol by 2027.
