# Cambodia Solar Container 40kWh

## Overview

---

Will Cambodia invest 210 billion in solar energy by 2043?

Phnom Penh, Cambodia – The Cambodian government has announced a historic investment plan in solar energy projects worth over 210 billion baht by 2043. This is part of its Power Development Masterplan (PDP) to transition the country towards clean energy and reduce carbon dioxide emissions.

Is solar power a solution to Cambodia's energy needs?

Cambodia is undergoing a transformative shift toward renewable energy, with solar power emerging as a crucial solution to the country's growing energy demands.

How many solar farms are being built in Cambodia?

That tracker also reveals 620 MW of capacity is on the way from two solar farms currently under construction, with an additional four installations planned. Cambodia is also set to enhance its renewable energy infrastructure with two new storage projects, according to Minister of Mines and Energy Keo Rottanak.

Will solar power boost Cambodia's energy share?

Phnom Penh, Cambodia — Cambodia is on track to significantly boost its solar energy share, with new figures projecting solar to make up 7% of the country's electricity supply by 2025. This equates to a total installed capacity of 530.14 megawatts (MW) —a major leap from 3.2% in 2023 and 4.6% in 2024.
