

# Can I bring an solar container outdoor power to Peru

## Overview

---

Personal items that can be brought into PeruMedication, supplements, and medical devices that can be brought into PeruElectric and electronic devices incl. accessories t.

How to transport photovoltaic solar panels?

The transport of solar panels and all the components associated with this type of renewable energy can be done by road by truck or rail, by air or by container ship. What issues need to be considered when transporting photovoltaic solar panels?

Suitable packaging: The first step is to ensure proper packaging for the solar panels.

How many solar panels fit in a container?

Therefore, the number of solar panels that fit into a container will vary depending on their size. Throughout the logistics process, care must be taken to avoid micro-cracks or cracks in the panels due to improper handling or transport that does not protect the products.

Should you bring small items to Peru?

If you only have smaller items that you can't part with, it would be easier, quicker, less expensive and less stressful if you just pack them into suitcases and pay the excess luggage fees of the airline flying you into Peru and bring them with you.

How long do you have to bring your household items to Peru?

However, you must bring your household items between 1 and 6 months after you entered the country into Peru. Only the tax is 12% of the customs value (not what you think your stuff is worth), which consists of the FOB value of the household goods plus the value of international freight and insurance.
