# Canberra long storage project

## Overview

---

What is the Big Canberra battery project?

The Big Canberra Battery project will deliver an ecosystem of batteries across the ACT to ensure that our electricity grid remains stable. The Big Canberra Battery project includes: The large-scale battery storage system in Williamsdale will deliver 250 megawatts (MW) of power, store renewable energy and support grid reliability.

What does Williamsdale's battery storage system mean for Canberra?

The large-scale battery storage system in Williamsdale will deliver 250 megawatts (MW) of power, store renewable energy and support grid reliability. This is enough energy to power one-third of Canberra for two hours during peak demand periods. Behind-the-meter batteries were installed to help power essential services across nine government sites.

What is the cost of self-storage in Canberra?

The cost of self-storage in Canberra varies based on the size of the unit and the duration of storage. With Box It, you can find self-storage units starting at \$110 per month.

What was Canberra's first indoor self-storage facility?

The Lock Up Self Storage was Canberra's first indoor self-storage facility. On Google, Carli Britton wrote, "Lovely staff. Great price. Easy access."

## Canberra long storage project
