

# **Central Asia Energy Storage Latest Investment Project**

## Overview

---

### What is Uzbekistan's First Energy Storage Project?

Installed with Sungrow's cutting-edge liquid-cooled ESS PowerTitan 2.0, this facility marks Uzbekistan's first energy storage project and stands as the largest of its kind in Central Asia. The project will play a pivotal role in driving the region's energy transition forward and setting a sustainable precedent.

### What did China Energy Construction & Overseas Investment Co do?

During the summit, China Energy Construction Overseas Investment Co signed a power purchase deal for a 300MWac solar-plus-storage project in Kazakhstan's Turkistan Region, a shareholder agreement for a 500MW wind-plus-storage project in Karaganda Region, and a memorandum of understanding on hydrogen energy research and innovation in Central Asia.

### What is China-Central Asia Energy Cooperation?

China-Central Asia energy cooperation now spans beyond energy security to support broader sustainable development and a low-carbon future. Emerging areas of collaboration now include energy conservation, environmental protection, green agriculture, and clean and renewable energy.

### What's going on at the China-Central Asia Summit in Astana?

Green deals On the sidelines of the just-concluded China-Central Asia Summit held in Astana, a series of cooperation agreements were signed, led by clean energy cooperation, underscoring the strong potential for further growth in this vital sector to meet the development of regional countries.

## Central Asia Energy Storage Latest Investment Project
