

# China-Europe solar panel inverter

## Overview

---

Are solar inverters a threat to Europe's energy sovereignty?

The European Solar Manufacturing Council (ESMC) today issued a clear and urgent warning: Europe's energy sovereignty is at serious risk due to the unregulated and remote control capabilities of PV inverters from high-risk, non-European manufacturers – most notably from China. Study by DNV provides the evidence.

Are solar inverters made in China?

Solar inverters that are NOT made in China. REC Alpha Pure and Twin Peak panels are made in Singapore. The company is owned by Reliance of India. SunPower Maxeon are approximately 30% Chinese owned. Their Maxeon model panels are not made in China. The other SunPower 'Performance' panel models ARE made in China.

Which is the best solar inverter from China?

Huawei Solar Inverter is considered one of the best solar inverters, not only in China but also worldwide. It integrates Cloud & AI to merge the most recent ITC-technologies with PV for optimizing the generation of power.

Are Chinese inverters a threat to Europe's remote infrastructure?

ESMC Secretary-General Christoph Podewils warned that Chinese-made inverters, which account for 70% of new European installations in 2023 (with Huawei and Sungrow as dominant suppliers), now power over 200 GW of capacity—equivalent to “more than 200 nuclear plants”—stripping the continent of “critical remote infrastructure oversight.”
