

# **China high voltage switchgear in Myanmar**

## Overview

---

Why is Mitsubishi Electric supplying equipment in Myanmar?

The supply order falls under the Urgent Rehabilitation and Upgrade Project Phase 1 (Package 2), a Japanese official development (ODA) project in Myanmar. Going forward, Mitsubishi Electric will supply a variety of reliable, high-quality equipment to contribute to the development of Myanmar's infrastructure and economy.

Which company supplies electric power generation enterprise (EPGE) in Myanmar?

For example, Mitsubishi Electric Corporation has been selected to supply Electric Power Generation Enterprise (EPGE) in Myanmar with 46 gas-insulated switchgear (GIS), seven transformers and other equipment via subsidiary Mitsubishi Electric Asia (Thailand) Co., Ltd.

What is the standard voltage in Myanmar?

In Myanmar, the standard voltage is 230 V. The frequency is 50 Hz. You can't use your electric appliances in Myanmar without a voltage converter, because the standard voltage in Myanmar is higher than in the United States of America (120 V).

Why is Myanmar developing its electricity infrastructure?

Myanmar is developing its electricity infrastructure to overcome power shortages due to the country's rapid economic growth. As of this effort, the country is urgently refurbishing and upgrading its aging substations as a high-priority measure.

## China high voltage switchgear in Myanmar

---

### Control switchgear in China in Myanmar

Nov 4, 2025 · Andeli Group Co., Ltd. is a prominent manufacturer specializing in both low- and high-voltage electrical devices, including a diverse range of switchgear. The company's ...
