# China's first small base station equipment lead-acid battery

## Overview

---

A grid-side power station in Huzhou has become China's first power station utilizing lead-carbon batteries for energy storage. Starting operation in October 2020, the 12MW power station provides system stability for the Huzhou Changxing Power Grid to enhance the capacity of frequency and voltage regulation.

What is China's first power station utilizing lead-carbon batteries for energy storage?

A grid-side power station in Huzhou has become China's first power station utilizing lead-carbon batteries for energy storage. Starting operation in October 2020, the 12MW power station provides system stability for the Huzhou Changxing Power Grid to enhance the capacity of frequency and voltage regulation.

Who makes lead acid traction batteries in China?

Tianneng is a renowned lead acid battery supplier in China, has also made significant achievements in the production of lead acid traction battery. These batteries meet both DIN and BS standards, offering numerous benefits such as outstanding user experience, high stability, ease of operation, low noise, and no pollution.

Which is the Best Lead acid battery supplier in China?

80+GWh Production Capacity, China Ranks First. China's lead acid battery supplier, providing a wide range of lead acid batteries. Tianneng Battery provides green motive power solutions for mobilities and all kinds of deep-cycle battery applications involved with commuting, sightseeing, distribution, sanitation, etc.

Who are the leading battery manufacturers in China?

It has successfully won the trust of top international enterprises such as China Mobile, China Telecom, Siemens, IBM, HP and GE, and has established long-term and stable cooperative relations. NPP Battery Product Series Founded in 1994, Vision Battery is a key battery manufacturer in China and successfully listed in 2014.
