

WALMER ENERGY

Copenhagen Energy Storage Container Waterproof Type Government Procurement

Overview

Does Denmark have a gas storage obligation?

Procurement of Gas Storage Obligation On behalf of the government, the Danish Energy Agency has launched a procurement process aimed at increasing gas storage levels ahead of the winter of 2025-2026 and contributing to Denmark meeting the EU's 90 percent storage target by 1 November 2025.

How safe is Denmark's gas supply?

The Danish Energy Agency assesses that the security of supply in Denmark and the EU is not currently threatened by the low filling level. The European market is well supplied with gas, and Denmark has good access to gas through domestically produced biogas, gas from the Danish part of the North Sea, and gas imports from Norway.

Will Denmark meet the EU gas storage target ahead of winter 2025-2026?

Find out more about Denmark's approach to meeting the EU gas storage target ahead of winter 2025-2026. EU legislation on the security of gas supply requires that member states with underground gas storage facilities ensure that these are 90 percent full ahead of the winter season.

Where can I find information about public procurement in Denmark?

The Public Procurement Division in the Danish Competition and Consumer Authority operates the Danish online portal for public procurement (udbud.dk). The division also organises the public-private network and is responsible for guidance on public-private partnerships.

Copenhagen Energy Storage Container Waterproof Type Government
