

WALMER ENERGY

Custom 40-foot mobile energy storage container in Australia

Overview

Why should you choose a container energy storage system?

Housed in durable shipping containers, our systems are engineered to meet the growing demand for renewable integration, backup power, and off-grid energy supply. Why Choose a Container Energy Storage System?

All-in-One Power Solution – Integrated battery storage, inverter systems, and control units in one secure container.

What is a Bess energy storage system?

It is designed to provide backup power, intelligent energy storage management and integration with a wide variety of inputs and outputs. Available in either a 10ft, 20ft or 40ft ISO CSC container, the BESS is designed to be cost-effective, safe, easy to transport, scalable and integrated to the specific energy requirements of our clients.

Can a shipping container building be powered by an off-grid Solar System?

Yes. We offer an off-grid solar solution to power your shipping container building. We also use a screw piling system when securing it to the ground. Screw piles eliminate the need for a concrete slab and are suitable for any terrain, including sloping or uneven ground.
