

# **Customization of hybrid energy equipment for Honduras solar container communication station**

## Overview

---

Where can a hybrid solution be deployed?

such as solar and wind. Our hybrid solutions can be deployed virtually anywhere including network edge Solar power and standby source during daytime, while batteries and genset as supplementary sources on grid is unavailable. source with long standby batteries and.

What is a hybrid energy solution?

use of renewable energy. The solution is a hybrid approach that minimises the use of diesel generators, used only in case of emergency, while maximizes the use of solar power and batteries, boosting the performance stability and financial return required to op.

What is the STC of a solar panel?

na Solar Energy Co, Ltd. All reported values reflect STC: 1000W/ m<sup>2</sup> Cell Temperature 25°C. Performance values for panels that are planned and installation from 2kW to 24KW and installation Efficient Arrangement defined to minimise losses associated with shadows, walls, fence
