

# **Customized uninterruptible power supply for lighting**

## Overview

---

Who makes a standard UPS system?

If you are looking for a standard UPS system we offer a variety from various manufacturers like Riello UPS, Eaton UPS, Vertiv UPS and APC UPS.

How do I choose a backup lighting system?

Review the specs on our UPS systems to find a match for your backup lighting needs. Then, choose from standard lead acid or lithium ion battery power options. With reliable UPS systems powering your emergency lighting systems, you'll be able to navigate outages safely. Learn more about two of our top UPS models for emergency backup lighting.

Which ups for UL 924 applications?

Both the 80kVA and 100kVA sizes for UL 924 applications have a high power density to maximize power output to your backup lighting system. The Mitsubishi Electric DiamondPlus ® 1100 series UPS is available in two models for UL 924 applications, providing multiple options to meet emergency lighting system requirements.

Why do we offer fully customized power module design & development services?

offer fully customized power module design and development services to meet unique product requirements We understand that every manufacturer, brand owner, and engineer has unique product requirements and that different markets have varying needs. That's why we offer fully customized power module design and product development services.
