# Dakar Solar Folding Container 100kWh Payment

## Overview

---

### What is a solarcontainer?

The Solarcontainer is a photovoltaic power plant that was specially developed as a mobile power generator with collapsible PV modules as a mobile solar system, a grid-independent solution represents. Solar panels lay flat on the ground. This position ensures maximum energy harvest. Panels lay flat on the ground.

### How do foldable solar panels work?

The foldable photovoltaic panels are tucked inside a mobile solar container. The mobile solar container can take up to five hours to assemble and make it operational. Its base is made up of a solid floor frame, and mounted on this frame is the photovoltaic panels' rail system and the folding mechanism.

### How many solar panels can be installed in a solarcontainer?

The unfolded panels can reach up to 120 meters in length, and there are 240 solar panels that can be installed. The Solarcontainer is a mobile system that can be used for both on- and off-grid purposes, including rescue missions and gatherings. The foldable photovoltaic panels are tucked inside a mobile solar container.

### What is a mobile solar container?

The Austrian energy company SolarCont has developed a mobile solar container that stores foldable photovoltaic panels for portable green energy anywhere.
