# Difference between wild home solar lights

## Overview

---

Are solar lights a good choice for Your Home & Garden?

The new and advanced solar light system that includes the solar battery, panels, etc. brings a lot of advantages to the table when it comes to solar lights for home, garden, or outdoors. Earlier, we only used solar illumination outdoors. But now, you can have solar light systems for your home & indoor gardens with the right application information.

Are indoor solar lights the same as outdoor solar lights?

Just like outdoor solar lights, indoor solar light systems have their own unique features, information guidelines, and types as well. The indoor solar lights are basically LED solar lights connected to small solar panels and an integrated battery. The solar panel is installed next to the window to charge the solar battery.

How long do outdoor lights last?

Outdoor lighting has gained immense popularity lately. The solar LED uses solar energy which is available in abundance in open areas. Therefore, solar lamps, solar bulbs, and solar poles can last up to 10-12 hours after being fully charged. Image Source: [taccitygoods](#) The lights for garden are in vogue nowadays.
