

# Dimensions of N-type 620 solar panels

## Overview

---

Are Jinko 620w solar panels good?

The Jinko 620W solar panel (monocrystalline) are among the best high-performance, efficient and durable solar modules in the market today. The Jinko 620W solar panel is a prime example of extraordinary quality and better performance in poor weather conditions. With a dimensions of 2382×1134×30 mm and an efficiency rate of up to 22.95%.

What is Trina Solar vertex 620w bifacial solar panel?

Trina Solar Vertex 620W bifacial solar panel, engineered for maximum energy yield, superior reliability, and long-term performance. Designed with advanced N-Type TOPCon monocrystalline cell technology, this panel delivers outstanding efficiency and durability, making it the ideal choice for residential, commercial, and utility-scale projects.

What is a risen 620w solar panel?

Risen 620W solar panels are built for distributors, EPCs, and installers who want real-world kWh with simple, low-risk engineering. The n-type TOPCon half-cell platform with a bifacial, dual-glass structure captures extra rear-side light and keeps output stable in heat and low light, helping you use fewer strings and trim BOS cost.

Where can I buy Jinko Tiger neo 620w solar panel?

You can purchase the Jinko Tiger Neo 620W panel by filling out an order form below or buying online on our e-shop. The panel is available for wholesale, retail, and nationwide distribution/installation. Jinko Solar is well-known for making high-quality, reliable solar products globally.
