# Disadvantages of solar panels

## Overview

---

What are the pros and cons of a solar panel?

A solar panel is a device that helps convert sunlight into electricity. The pros of using solar panels include a lower carbon footprint, lower electric bills, potentially higher home value and tax credits. The cons include high initial costs, specific roof requirements, possible higher property taxes and storage costs.

What are the disadvantages of solar energy?

The cost of installation is one of the biggest disadvantages of solar energy. It can cost anywhere between 15000\$ and 30000\$ to install a solar power system at your average-sized home, and that's without including batteries to store the power.
