# Discounts on grid-connected solar-powered containerized solar panels for mountainous areas

## Overview

---

Can a containerized Solar System be installed off-grid?

Off-Grid Installer have the answer with a containerized solar system from 3 kw up wards. Systems are fitted in new fully fitted containers either 20 or 40 foot depending on the size required.

Are off grid solar containers reliable?

Solar equipment is very reliable but occasionally parts may fail so there is need to monitor and solve any problems. Off Grid Solar container units guarantee security and reliability and allow the engineering team to complete installations in a few days rather than weeks.

What is a grid tied solar system?

A grid tied solar system is the most popular and cost-effective way to harness solar energy for your home or business. Unlike off-grid systems that require expensive battery storage, grid-tied systems connect directly to your local utility grid, allowing you to generate clean electricity while maintaining reliable power access 24/7.

What is an off grid solar container unit?

Attaching to the grid can also be expensive and this can be an issue in the UK as well as Africa or Latin America. An Off Grid solar Container unit can be used in a host of applications including agriculture, mining, tourism, remote islands, widespread lighting, telecoms and rural medical centres.
