

# **Does the government still support solar panels**

## Overview

---

What government programs are available for solar energy?

Here's a quick overview of the main solar energy government programs available: The federal solar tax credit (ITC) remains the cornerstone benefit, allowing homeowners to deduct 30% of their solar installation costs from their federal taxes through 2032.

What is a solar energy government program?

Programs focus on equity, with targeted incentives for disadvantaged, Tribal, and multifamily housing communities. Unlock 30–80% savings with solar energy government programs. Discover federal, state, and local solar incentives for homeowners & renters in 2025.

Could solar for all help reduce utility bills?

Customers typically receive monthly credits for the share of solar they help “produce,” which reduces their utility bills. Research suggests the Solar for All program could have an impact far beyond the projected 900,000 plus households, says Sanya Carley, professor of energy policy at the University of Pennsylvania.

Will the US spend \$421 billion on wind and solar energy?

The United States, under the Biden-Harris climate bill, the Inflation Reduction Act, is expected to spend \$421 billion between 2025 and 2034 in subsidies for wind and solar energy that is rapidly deindustrializing European economies, which have been leading the charge towards “net zero.”
